DEVELOPMENT OF THIS PROPERTY WILL HELP COLEMAN OUT

This Town Likely to Experience Considerable Boom As Result of Extensive Development of Valuable Coal Lands a Short Distance North of Here.

J. F. Wilson, who, with a number of associates, owns some six thousand acres of valuable coal lands on the North Fork, came into Coleman this week and made an important announcement regarding this property.

It is anticipated considerable American capital will be invested in this proposition at an early date. In fact, a gang of surveyors have been at work for some time locating a line of railway from a point near Pelletier's siding, on the Crows Nest

line, to these coal lands, which are situated about eight miles north of Coleman. E. H. Prince is head of this survey party and expects it will take at least two months more to complete his work.

Temporary buildings will be put up on the property as soon as possible, and a couple of tunnels will also be driven.

The coal is described as the best in the country, and the development of the property will mean a great deal for Coleman.

HILLCREST vs. FRANK

Last Sunday afternoon the Hillcrest Warriors met defeat in a hotly contested baseball game on the Hillcrest diamond at the hands of the C. P. R. Gladiators of Frank. It was a veritable Waterloo and the boys on the hill are still speculating as to how the battle happened to go against them by so decisive a score as 11 to 4. They were routed by the C.P.R. boys, who have recognized with a new pitcher and some of the old talent.

Ted Therson, a recruit who was tried out for the first time with the C.P.R. boys, played a brilliant game in the outfield and also had a perfect day at bat. Therson made three shoe-string catches, robbing the Hillcrest boys of several runs. He pounded out a three-bagger, two doubles and one single out of four times at bat, and thus bids fair to become a major leaguer.

Third base man Caruthers and first base man Fitzsimmons, were shifted to outfield, and while the positions were new to them they put up a good article of ball. Fred Livingstone, who worked on the rubber last year, was tried out at second base and it will take somewhat of an infielder to take his berth away from him.

Peters and Bradbury made a battery that will stack up well with anything between Cranbrook and Lethbridge.

The Hillcrest boys made a heroic effort in the last few innings to stem the tide and save the day. Their efforts were futile, however, and the Hillcrest Warriors saw their flag come down and victory perch upon the banner of the C. P. R. team.

The C. P. R. boys would like to meet any team in the Pass, preferably Macleod or Fernie.

HITS AND MISSES

Some people surprise us by doing just what any ordinary person would be expected to do.

If every man could achieve his ambition the government would certainly be in the hands of the people.

In this country preachers have a hard time trying to get along without eating—in Africa to get along without being eaten.

If astronomers want to open up conversation with one of the planets, why not try Venus. She would be the more likely to answer back.

The achievement of a certain desire which seemed almost impossible when you first set your heart upon it, seems commonplace and ordinary when the feat is achieved.

Women teachers are demanding men's salaries. Lots of teachers get them, but the fact is little known because they quit teaching just before getting married.

Seven of the southern Chinese provinces with a population twice that of the United States, have come to an agreement for joint action against Provisional President Yuan Shi Kai and the Peking government. In the eighth province, Kwang Si, the troops under General Lang sympathize with the movement.

Cardinal Merry Del Val's decision to expel the legation of the midnight Swiss guards at the Vatican and his refusal to give satisfaction to the others until the agitation has ceased has not produced the desired effect.

REDISTRIBUTION BILL

Ottawa, Ont., July 20.—A general redistribution bill, necessitated by the census, is due in the Canadian parliament and it is wholly probable that it will be brought down at the next session, says the Citizen.

It is the usual system to introduce a bill on general lines and to leave to committee the work of adjusting the boundaries of the constituencies and determining the principle upon which the redistribution is to be made. The lower provinces stand to lose a few seats and Ontario likewise but the west will gain correspondingly. Both Montreal and Toronto will be entitled to more members at the expense of the rural districts. The procedure generally followed however, is to conduct to rural countries a smaller unit of population than is required in city divisions to entitle to parliamentary representation.

As announced in the call for the provincial conference here in October, the question of Maritime province representation will be discussed. They wish to hold what they go have and this claim is being emphasized apart from politics altogether. At the last conference, however, the other provinces were not wholly sympathetic to the scheme though no definite conclusion was arrived at. Meanwhile there is every likelihood of a redistribution bill next session and arrangements to that end are in progress.

NEW CO-OPERATIVE SOCIETY

A meeting of townspeople desirous of forming a Co-Operative Society, under the new Co-Operative Association Act, which was passed in the Legislative Assembly of Alberta in March last, was held in the Coleman opera house on Monday evening last.

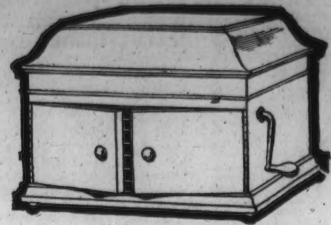

It was explained that the new Act of Parliament gives societies power to have withdrawable shares and makes the management of the company's affairs truly democratic, each shareholder having one vote.

The act also gives power to the Society to loan money to its members for buying real estate or building houses. Women are eligible to become shareholders in their own rights.

It was decided to form an association and a committee of seven was elected to draw up rules and investigate the status of the present Co-Operative Company and report to a further meeting.

The meeting was fairly well attended and several ladies were present. It was stated that the profits made by the old Co-Operative Company had aggregated \$23,000.00 and that the annual trade of the Coleman store exceeded one hundred thousand dollars.

A house on Second Street, owned by D. F. Hughes, and occupied by Mrs. Vicori was the scene of conflagration on Wednesday week. The origin of the fire is not known, but damage to the extent of about \$125 resulted which is covered by insurance. The residence adjoining was also more or less damaged. Fortunately there was no wind at the time, or the result would undoubtedly have been much more serious than it was. The fire department came in for considerable praise for the splendid manner in which they got the blaze under control.

We have received a shipment of Victor Victrolas this is the latest type, the tone of this instrument cannot be equaled. We carry a good stock of records. Come in and hear favorite sing or play a selection.

Ten Million Dollars For Alberta

The Bulletin is pleased to note that, apart from the one slip referred to in our last issue, the Calgary News-Telegram is conducting its campaign to secure from the Federal Government a loan of ten million dollars for Alberta, entirely apart from the arena of politics. This is as it should be, and The Bulletin is pleased to give space to the following editorial from a recent issue of the Calgary Albertan, which places the whole question before the people in a fair and honest manner:

"The honest and sincere endeavor of a Calgary newspaper to provide some means to avoid the unnecessary results of an unreasonable and needless financial stringency has brought forth an amount of senseless criticism and in some cases ignorant abuse.

"The Regina Province, in its self-righteousness, resents any attempt to remedy conditions, and hurls the meaningless words 'calamity howlers' at the people who are courageous enough to face the issue and try to do something to stem the tide.

"The Province declares that Saskatchewan is thriving very nicely, and intimates that it is in no need of money. It says in one breath that Alberta is in a financial crisis because of the bad administration of the Sifton government, and then, lest that might be construed as an indirect endorsement of the Scott administration, it blames all the trouble upon the excessive speculation of Alberta cities, all of which is untrue.

"This financial stringency is in no way local. Calgary is in no more serious straits than Regina. Edmonton does not feel the financial stringency more than Saskatoon. Lethbridge is not harder hit than Moose Jaw, and Medicine Hat is better able to stand the strain than Prince Albert. The real estate speculator in his march across the continent did not leave Saskatchewan out of the calculation.

"The Regina Province is simply whistling to keep its courage up. All Western Canadian cities are making courageous efforts to bear up against a depression for which they are not responsible. But that seige can be maintained without unnecessary abuse of people who are attempting to relieve the situation.

"There should be no such depression. A system which permits it is wrong. There has been no over production. Instead of money becoming the vehicle of commerce, it has become the dominant, unsympathetic, unyielding master of commerce. This emergency will pass away very soon, and people may forget it. At the same time, now is the time for consideration, and a newspaper such as the Regina Province, which has a rock for any person or paper which calls things by their right names, and all the time attempts to reap some despicable, petty party advantage out of the whole affair, is doing no service to the community, and is neglecting the opportunity which every newspaper possesses.

"The suggestion of the Calgary paper is that the Dominion Government at this time could relieve a trying situation by loaning money to the cities to enable them to proceed with public works, and thus keep men employed and things going. That could be done without impairing the credit of the west in the slightest. It could be done without wrenching any of our methods or financial arrangements. It is reasonable that it should be done. It is no partisan campaign proposition. It is a wise and brave effort to help out. The people who meet it with the senseless cry of 'calamity howlers' are as cowardly as they are foolish, and as foolish as they are insincere."

Current Comment

Anyway, we don't wonder at the illness of these English suffragettes. Their pugnacious tactics would make anybody sick.

"Where there's a will there's a way," reads the heading in a Spokane newspaper. Not much. Where there's a will there's usually a family row.

Andrew Carnegie gave ten million dollars to promote peace. Most of us would feel at peace with all the world if we had a sum like that.

A Minneapolis man wants a divorce from his wife because she refuses to cook. Some other men who have wives who do cook might be glad enough to trade with him.

The New York Sun says that a daily sweet cream bath keeps the skin soft in winter. In our humble opinion anyone soft enough to try the prescription would have no need of it.

When a girl begins changing the spelling of her front name, it is pretty certain that a reasonable proposition to obliterate the last name would receive favorable consideration.

A crusty bachelor told a Winnipeg magistrate last week that he would be happy if he had a wife to do his cooking, mend his clothes and look after his personal comfort. Well, so would a lot of married men.

Down in Kansas a German has bought up a right-of-way and started in to build a railroad all by his lonesome. With one scraper and a mule team he has averaged a mile a year since 1908. But even at that rate he is likely to reach South Alberta as soon as the C. N. R.

A new rule of the Oregon Agricultural College Canoe Club provides that no man may take a girl canoeing until he has passed an examination in swimming and handling a canoe. Very good, but until he

can swim and paddle a canoe without the use of his arms there will still be danger.

English papers tell us that Mrs. Emeline Pankhurst is very ill and may not recover. The scrappy suffragette's present condition has been brought about by her frequent hunger strikes. But Emeline should bear in mind the fact that if she doesn't live to get votes in this world, it's a safe bet she won't get them in the next.

Over in Barrow, England, a woman named Pickupp gave birth to a fine pair of children—but there was six weeks between the dates of their birth, and the doctors and medical societies of the country are now trying to decide whether the new arrivals are twins. The Bulletin would not venture an opinion on such a momentous question, but judging from the mother's name, it is plain the stark left a pair of "pickups" anyway.

The German newspapers are busy making rather sneering remarks about President Wilson's "Dollar Diplomacy" in connection with the Nicaragua situation. Well, what about it? It's the most effective kind of diplomacy the world has yet heard about? Evidently the people across the North Sea haven't discovered the fact that "money makes the mare go."

Out of deference to the opposition to its slogan, "The modern farmer no longer prays for rain, he pays for it," registered by the Anglican Synod held in Calgary recently, and also by the Lethbridge corps of the Salvation Army, the Western Canada Irrigation Convention which meets in Lethbridge next week, has substituted the words "not only" for "no longer" and the new slogan now reads: "The modern farmer not only prays for rain, he pays for it." All of which goes to prove that the English language is about as handy as a pocket in a shirt.

THE GOVERNOR IS COMING TO COWLEY

Polo Tournament To Be Held There Next Month Biggest Event Of The Kind Ever Held in Western Canada.

COWLEY, July 30.—Messrs. M. A. Murphy and W. Howie spent last week fishing the North Fork of the Old Man and report an abundant catch. The Cowley Hotel had a very narrow escape from destruction by fire on Monday forenoon. The presence of a water tank on the spot and many willing workers resulted in putting the fire out. The origin is unknown but is likely the result of carelessness in the disposal of a cigar stub by someone.

A very pleasant meeting of the Women's Institute was held at the home of Mrs. A. J. Snyder last Saturday afternoon. The program consisted of a very interesting paper on "The Musical Education of Children" by Miss Amy Swinney; a paper on the "Care of the Hen" and one on "The Hand That Rocks the Cradle Rules the World." Refreshments were served by the hostess, Mrs. Snyder and Mr. Cowerman being invited to join the ladies at lunch, and thereby having the honor to be the first gentlemen to attend a meeting of Cowley Women's Institute. The Institute although only organized a few months ago is becoming very popular, new members coming in at every meeting. The regular meeting day is the third Saturday of each month. The August meeting will be held at the home of Mrs. E. M. Bowerman, the 16th, at three o'clock. These meetings are for everybody in the district and all are cordially invited to attend.

Mrs. Howie has returned to town after a week of camp life.

Miss Pettit and Mr. Pettit have joined a camping and fishing party at the Gap.

Watch Cowley Grow! The Presbyterian manse and the Polo club house are two substantial additions to the town.

J. C. Drewery's, triumph at the shows at Winnipeg and Brandon is taking up considerable space in all the leading papers of Canada these days and is serving the double purpose of telling the public where they can procure the best to be had in Percheron horses and Holstein cattle and as well putting Cowley and the Glen Ranch on the map. Residents of Cowley and vicinity share in the benefits to be derived from having such stock in our district as well as in the advertising which it brings.

His Honor the Lieut.-Governor of Alberta has accepted an invitation to attend the Polo Tournament to be held here in September. Every good citizen will do himself and his town credit by seeing that both his house and back yard are in order. A little paint goes a long way to brighten things up. Your correspondent will take the advice he is giving. Everybody get in line.

W. C. Robinson received injuries in a runaway accident this week which will lay him up for some days. Mr. Powlett is installing a pumping plant over his new well and we are all pleased to know that there is now some water within easy reach.

Dr. Richards, dentist of Macleod, made his regular monthly visit to Cowley on Wednesday of this week.

IS IT COMING HERE?

Early in 1908 a farmer in the Spring Creek Valley in Hodgman county, Kansas, was approached by an old German, a stranger to him, who wanted to buy a narrow strip across his farm. Questioned, the stranger admitted he wanted the land for a railroad right-of-way.

He admitted that he was not backed by any railroad company, and declared that he was going to build the railroad single handed and alone.

The old German, Rudolph Meyer, obtained his right-of-way and began his construction work.

What his plans were, where he gets the money to live on, how he hopes to obtain ties, rails and other equipment are questions that Meyer doesn't answer. He points to the roadbed already graded and lets the visitor guess the rest.

With only his own labor, the pair of mules and a scraper, he has averaged a mile of roadbed a year since he began work. He works all day when the weather is fine, winter or summer. When it is too cold or too wet he whiles his time away in the little shack that he moves along as the grade advances.

"The Only Cure for Piles"

Writes Mr. Taylor In Telling His
Experiences With Dr. Chase's
Ointment.

Mr. M. Taylor.

Because Dr. Chase's Ointment
brings almost immediate relief from
the dreadful itching, burning, sting-
ing sensations of piles, it is well worth
the attention of everyone suffering
from this annoying disease.

In most cases, even after years of
suffering, Dr. Chase's Ointment makes
a thorough and lasting cure of it-
ching, bleeding and protruding piles.

Mr. Maxwell Taylor, Charlottetown,
P.E.I., writes: "To all sufferers from
piles in any form I would recommend
Dr. Chase's Ointment as the only cure."

Over a year ago while in Boston I
became afflicted with a dreadful it-
ching. I went to a doctor, who gave
me some ointment, which made me
no better. A friend advised the use
of Dr. Chase's Ointment, and by the
use of it I was entirely cured.

EX-SULTAN'S OPINION OF WOMEN

Turkish Women His Ideal of What
the Fair Sex Should
be Like

Berlin, Germany.—Further interest-
ing memoirs of Abdul Hamid, the pre-
sident of Turkey, are published
in the March number of Nord und
Sud, by the courtesy of Frederic
Ludwig Stein, the editor, I am able
to give the following extracts:

The memoirs deal principally with
religious and moral questions. Abdul
Hamid was in the habit every day dur-
ing his long reign of dictating for
some thirty minutes his private
thoughts to Ali Babai Bey, and the
present publication is taken from this
work. The memoirs have been trans-
lated from the original into German
by Herr Heinz Bohmer, the Turkish
consul in Berlin. Speaking of the
status of women, the ex-sultan says:

"Every man who has sense will de-
plore with me that women are given
too much freedom, that they rule the
salons, and are seen to walk about the
streets, while men are slowly drifting
to be their servants."

"I do not mean to go so far as to say
this is the case in America. Why do
Europeans criticize our women? Are
Turkish women not prettier and more
modest than others?"

In our country the woman belongs
to the household, and belongs to one
man alone. In Europe she has much
too much freedom to remain a woman
at all. If only half I have read in
the news and newspapers about woman-
hood in the west is true—we'll I pity
the western men!

The former sultan appears to have
been favorable to some reforms being
introduced in Turkey, but these re-
forms, he says, must not be rushed on
too fast, as to go too fast is to go too
fast, while leisure and after-
thought are divine. He does not ap-
prove of young Turks going abroad
for any length of time, he fears no-
thing as much as the poison of Euro-
pean civilization. Beware of ideas
that come from the west! They are
most dangerous for our country.

When I see how happy our Muslims
are, I feel I must oppose with all my
power the coming of the European
new spirit. This spirit poisons our
souls and our character. Islam is
not unfavorable to progress, but any
progress must come from within, not
from without.

Dealing with the present conditions
of Islam, Abdul Hamid states: The
koran preaches virtue more effectively
than any other religious work. There-
fore Islam will in time be victori-
ous in the whole world. Our trouble
comes from the fact that our empire
has no constitution, no law, no equity.

We have too many Christians in our
land. Only evil can be expected from
the fact that more than one reli-
gion reigns in our country. Look
what happens in Germany!

The salvation of Turkey can only
be in deep religious belief. There-
fore our future—England, France,
Russia are in my hands. One word
from my lips will suffice to open a
hole in the wall of Constantinople.

Then Chinese and Japanese
nations will see their doom. That
time has not come yet, but it is bound
to come when millions of brave Mus-
lims will shake off the yoke of the
Glorious—60,000,000 living in British
colonies, 30,000,000 in India, 100,000,000
etc. Two hundred and fifty millions
pray every day for Allah and the Kha-
lifa. Can one really think that the
Muslim is a weak instrument in the
concert of nations?

This rather bellicose statement is
indeed a revelation of the sultan's
thoughts about tolerance in Turkey,
which, according to the ex-sultan's
opinion, is far greater there than any-
where else. He bitterly criticized the
young efforts, who ensure every-
thing that is done in Turkey. These
unfair positions are our worst ene-
mies he says. Thanks to my secret
police, I know exactly where they are
to be found. Thank Allah our good
people keep far from these eternal
sowers of discontent. A real Mus-
lim is always an optimist. The ex-
sultan expresses his opinion on slavery
as follows:

I have just received a petition from
the anti-slavery congress asking me to
suppress slavery in Turkey. I am
surprised to see how little Europe
knows about our customs and habits.
How can the patriarchal relationship
existing here between masters and
servants be called slavery?

The Koran compels us to treat our
servants well, and our laws adequately
protect the latter against any abuse
of power at the hands of their mas-
ters. There is no slavery in my em-
pire. A debarhah (maid servant) in
Turkey is happier than a maid in Eu-
rope. Why curse the slave, mer-
chants? They only secure servants
for a certain time.

Many an abandoned child, dying of
hunger in the street, has found its sal-
vation at the hands of these so-called
"slave-merchants." Many girls have
found good positions in families by
this process, and some even have been
married by pashas.

STATE HORSES FOR SALE

Motorcars Substituted by New Presi-
dent of France

Paris.—President Poincare has
modernized the stables of the Elysee.
He has come to the conclusion that
in these days of motorcars there is
no sense in spending the taxpayers'
money on the upkeep of horses and
old-fashioned carriages and expensive
coachmen.

He has given orders for the sale of
all the horses, except four in the sta-
bles of the Elysee; has dismissed the
head coachman Truade, who on gala
occasions, drove the presidential car-
riage with outriders, and then other
coachmen and stable hands.

The four horses which are to be
kept will very rarely be used by M.
Poincare himself. They are for his
wife's private use, principally. It is
impossible that Mme. Poincare, may-
ride in the Bois as an encouragement
to Paris society not to let riding drop
out of fashion.

Milkmaids in Switzerland make
milkdresses of the kind readily sold

much as \$50 each.

Andrew Carnegie, the venerable steel magnate and philanthropist, has transferred the management of the income of \$100,000,000 of his fortune from New York to the Carnegie Dunfermline trust in London.

The Duchess of Marlborough has accepted the presidency of the Women's Municipal party, which was formed with the object of putting women candidates for office in the various London municipalities.

The European concert is faced by the most difficult situation, requiring the exercise of the utmost diplomatic tactics if Europe is not to be plunged into a general war by the Turkish re-occupation of Adrianople and Kirk Kilisseh.

Lady Sybil Smith, daughter of the Earl of Antrim, Mrs. Pethick Lawrence and Miss Evelyn Sharpe have been sent to prison for 14 days for attempting to hold a militant suffragette meeting in the lobby of the House of Commons.

The House of Lords rejected last week the bill to abolish plural voting at elections in the British Isles. The vote was 198 to 92. On July 14 this bill passed its third reading in the House of Commons after a motion to reject it had been defeated.

King Alfonso and Queen Victoria of Spain arrived in Paris last week, traveling incognito, on their way to the Cowes regatta. They were accorded an encouraging reception by a crowd which recognized them while they were shopping. Their majesties were the guests of President Poincaré at luncheon at the palace of the Elysee.

In view of the adverse criticism recently in London against Canadian municipal securities, the splendid reception given to the Winnipeg issue, which was over-subscribed in advance, has produced the greatest satisfaction in Canadian financial circles. The comparatively low price, however, is unquestionably due to J. Horne Payne's recent uncalculated attack.

The Times (London) Wellington correspondent cables a serious outbreak of smallpox has broken out. There are now 40 cases in the Auckland hospital including 30 Maoris. There have been 10 deaths among the Maoris and no fewer than 57 cases have been reported from one Maori village. The vaccination of both races is proceeding on a wholesale scale, and is enforced on all northward-bound passengers.

The proposed treaty between the United States and Nicaragua evokes a few sarcastic remarks in the German press on President Wilson's return to the system of "dollar diplomacy." Government circles, however, express themselves as perfectly satisfied that the proposed protection over Nicaragua will diminish the chances of international disturbance and improve the business condition and the financial stability of the country.

The marriage of Prince Arthur of Connaught and the Duchess of Fife will be celebrated on October 15, in the chapel royal in St. James palace. It is understood that Prince Arthur has asked the Prince of Wales to act as best man and that the latter has consented, while Princess Mary is said to be one of the bridesmaids. The king on rare occasions has given permission for other than royal weddings to be held in St. James palace.

MARRIED

McKINNON—RADFORD—At Coleman, Alta., on Wednesday, July 30th, 1913, by Rev. Father A. L. de Lestre, Daniel J. McKinnon, of Bellevue, to Miss Ethel Mary Radford, of Coleman.

BAKAY—GUSEUL—At Coleman, on Saturday, July 20th, 1913, by Rev. T. M. Murray, Joseph Bakay to Miss Petraske Guseul, both of Coleman.

The consulting physicians in attendance on Mrs. Emmeline Pankhurst, who has been released from Holloway jail, London, take no serious view of her condition that they order the immediate resort to a transfusion of blood. Mrs. Pankhurst's weakness and inanition from the first of her hunger and thirst strike are so extreme that great apprehension is felt as to the outcome. "She could be no worse," was the statement made by one of the attendants.

A strange incident at the Covent Garden one night last week gave the king's entourage some anxious moments. The king and the queen, the Duke of Connaught and other royalists came to hear Melba in Romeo and Juliet. The king sat in the omnibus box on the lowest tier, while others of his party occupied the royal box above. During the performance a man walked up to the box and stared at the king until the attendants persuaded him to move away. It was then noticed that the man had a black cross painted or planned on his shirt front. It is learned that he first presented himself at the opera house in ordinary street dress but was not admitted. Then he went back to change his clothing for the regulation evening dress. The man, who is believed to be a suffragist, left the house without delay on request of the officials.

A remarkable discussion on the treatment of criminals took place Thursday at the annual meeting of the British Medical association at Brighton, England. Rev. E. B. Simpson, chaplain inspector of prisons, said he had been both amazed and amused at articles of sloppy sentimentalism, which he read, setting forth that imprisonment does not act as a deterrent to crime. He maintained that the attitude of many who are sent to jail is "once bitten, twice shy." Captain St. John, honorary secretary of the Penal Reform league, believes all the harm done to society by the burglars and all the thieves is a mere bagatelle compared with the harm done by the law courts of England. "Everybody knows," he declared, "that the law courts are making criminals day by day, so we have to protect ourselves, not only from criminals but from the people who deal with criminals."

Synopsis Canadian Homestead Regulations

The sole head of a family, or any male over 18 years old, may homestead a quarter section available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant appear in person at the Dominion Land Agency or Sub-Agency for the District. Entry by proxy may be made at the office of any Local Agent of Dominion Lands (not sub agents) on certain conditions.

Duties—Six months residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required in every case, except when residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3 per acre. Duties—Six months residence in each of six years from date of homestead entry (including the time required to earn homestead patent) and 50 acres extra cultivation. The area of cultivation is subject to reduction in case of rough, scrubby or stony land after report by Homestead Inspector on application for patent.

Synopsis of Coal Mining Regulations

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon territory and the North-West territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,000 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person, or the agent or sub-agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivision of sections, and in unsurveyed territory the tract applied for, shall be sketched out by the applicant himself. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of ten cents per ton.

The person operating the mine shall furnish the Agent with sworn reports accounting for the quantity of merchantable coal mined and pay the royalty thereon. If the coal mine rights are not being operated, such returns shall be furnished at least once a year. The lease will include coal mining rights only, but the lessee may be permitted to purchase whatever available surface right may be considered necessary for the working of the mine at the rate of \$10 per acre.

For full regulations should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.
